Characteries:

- The most important characteristic of the plastic chicken coops is having demountable parts.
- Thanks to the characteristics of the coops, you can change the broken or wornout parts.
- Since the coops are demountable, it ensures you to have an advantage for storage.
- You can mount the coops very easily.
- There is no need for additional equipments.
- When compared with the iron cages, this product has no problem of oxidation therefore it doesn't harm the chickens.
- Since the surfaces of the coops are smooth and rounded, they don't lead to corrosion, breaking and injuries during the transportation of the coops.
- The special design of the coops ensures maximum ventilation.
- Its excellent lock system prevents the slippage of the load.
- The coops can be used in very low temperatures.
